Prompterly Development Questions

Data Questions	
Does the Coaching Lounge remember the user's chat history? If so, is there a limit to this?	
Does the Lounge remember chat history per thread only, or across threads within a Lounge?	
How often do data backups occur?	
Are backups automated?	
What is our data retention window?	● chat messages: ? ● notebook entries: ? ● time capsule entries: ? ● system logs: ? ● backups: ?
Are backups incremental or full snapshots?	
Can we restore an account's backup data/snapshot if required? If so, is this a quick process? How long would it take?	
Have we tested a data restore recently?	
How long are backups retained currently?	
Can we restore a single user / single lounge dataset, or only whole-environment restores?	
When a user deletes their information i.e. chat threads, or notebook entries, is deletion a hard or soft delete?	
Can we temporarily disable deletion for a specific user at the database level if required?	
What happens on account deletion: do we delete, anonymise, or retain minimal records for compliance?	
Do we have a "legal hold" capability that prevents deletion for a user/account (even if UI shows delete)?	
If we can't prevent deletion in-app, can we at least retain 'tombstoned' copies or block deletion via API/admin?	
Is there an audit log of deletions (who/when/what) and can it be	

retained separately from user content?	
Is data encrypted at rest (DB + S3), in transit (TLS) and in backups?	
If yes, what encryption standards are used (e.g. AES-256, TLS 1.2+) and how are encryption keys managed?	
Who has access to production DBs and backups (roles + MFA + logging)?	
Are secrets managed via AWS Secrets Manager/Parameter Store (or equivalent), not hardcoded?	
What's the current data lifecycle in reality? Please use the boxes below and fill in the information	

Active account	Account deletion	Backups	Financial records	Logs
Retain all data fully?	Deleted from live systems within ?? days	Retained for ?? days, then overwritten	Do we have control over this?	Short operational retention window • Access logs: ?? days • Authentication logs: ?? days • Error logs: ?? days

Minimum user age & privacy	
Can we please add two tick boxes on the sign up form acknowledging they are 18 years or older & that they agree to the terms of service and privacy policy. The exact wording is: • I agree to the **Terms of Service** and **Privacy Policy** • I confirm that I am at least 18 years or older	How are cookies used and where is this data stored?	
User settings	
When a user selects 'Archive' data or notebook entries, what happens to the data?	
When I click 'delete' data in the user setting, nothing happens even though there are chat threads. Does this need further development?	
When a user selects 'Export data' what happens after this? Nothing	

appears on the screen. What formats does it export as?	
When a user selects ‘Time capsule reminders’ on, how are they notified a time capsule is ready outside of the standard notification in the coaching lounge?	
Can you please add the ‘Profile and Settings’ link in the menu inside the Coaching Lounge too, not just from the dashboard?
